OBJECTIVE

Detail-oriented BS Information Technology graduate (Cum Laude) with hands-on experience in data management, document verification, and administrative support gained through a government internship, plus exposure to data analytics through a capstone project. Comfortable managing records, communicating with stakeholders, and learning new systems quickly. Seeking a role in data entry, administrative support, quality assurance, or data analysis to apply accuracy and analytical thinking toward reliable, efficient operations.

SKILLS

- **Attention to Detail and Accuracy:** Reviewed and verified documents and records against defined standards, resulting in accurate data across hundreds of records
 - **Data Management and Reporting:** Entered, validated, and reported data using Excel and Google Sheets, resulting in accurate, well-organized records
 - **Problem-Solving and Discrepancy Resolution:** Traced discrepancies back to their root cause instead of assuming system error, resulting in corrected and reliable data
 - **Stakeholder Communication:** Communicated with students, employers, and program stakeholders, resulting in smooth coordination of events and inquiries
 - **Technology Adaptability:** Learned and applied new digital tools and platforms quickly, resulting in minimal ramp-up time on new systems
 - **Confidentiality:** Handled sensitive information according to strict standards, resulting in zero data privacy issues
-

EXPERIENCE

Administrative and Data Management Intern

Department of Labor and Employment (DOLE)

Region XI, Government Internship Program,

assigned at Davao Oriental State University

City of Mati, Davao Oriental

March 23, 2026 - October 2, 2026

- Encoded and verified employer, applicant, and employment-related data in the PESO Employment Information System (PEIS) against required standards, resulting in accurate records across hundreds of entries for job fairs and recruitment programs
 - Traced mismatched totals in an analytics report back to their source instead of assuming a formula error, identifying unrecorded status changes and correcting the data, resulting in accurate, aligned reporting
 - Reviewed employment documents from applicants and partner employers, applying confidentiality standards consistently, resulting in zero data privacy issues during the internship
 - Managed SPES beneficiary records and organized files, resulting in complete and easily retrievable documentation
 - Built Excel formulas to extract and organize data, and coordinated logistics for job fairs and pre-employment seminars, resulting in faster reporting and smooth event execution
-
